

Fertility Treatment for International Patients

SUNFERT IVF welcomes with open arms patients from overseas. Regardless of your cultural background, we are ready to receive you.

How does one go about arranging a visit to Sunfert IVF?

The usual duration of treatment is about 18 days, inclusive of about 1 day of rest after IVF before returning home. Patients wishing to visit Sunfert IVF for treatment have three options.

OPTION 1

Single Visit IVF Treatment Programme (All-Inclusive)

This option is for couples who would prefer to make only one single visit to Sunfert IVF for initial assessment and subsequently stay on until the completion of the IVF program. For this option, the couple has to plan their visit to be on the first or second day of their menstrual cycle. The entire program is about 18 days, and the couple returns home after completion of treatment. Patients may choose the Premium or Standard Accommodation Package, depending on the type of accommodation preferred. The package is inclusive of hotel accommodation, airport transfer and the cost of the entire IVF treatment including doctor's fees, laboratory charges, medications and blood tests. Some couples may opt to stay longer, until the pregnancy test which is about 14 days after the embryo transfer. However, the cost of the longer stay is additional to the package.

18 DAYS 17 NIGHTS

The package is inclusive of Fertility Assessment, IVF/ICSI treatment, Airport transfer and Accommodation.

● Fertility Assessment includes:

- Consultation
- Semen Analysis
- Hormonal Blood Test

● IVF Treatment inclusive of below:

- Fertility Medication
- Consultation Fees
- Laboratory charges including ICSI or Laser Assisted Hatching if needed
- Operation room charges

● 18 Days 17 Nights visit to Malaysia with Premium or Standard Accommodation

● Optional package tour within KL city can be arranged (at own cost)

STANDARD ACCOMODATION PACKAGE - RM 23,000

PREMIUM ACCOMODATION PACKAGE - RM 26,000

OPTION 2

Two Visit IVF Treatment Programme (All-Inclusive)

With this option, the couple is required to make two visits to Sunfert IVF with shorter overall stay. The initial visit is for assessment and planning of treatment. The couple stays only overnight in the initial visit and can return home the following day with medications. They commence treatment at their home country and return to Sunfert IVF at a later date for the final 10 days of treatment. For this option, they can either choose the Premium Accommodation Package or the Standard Accommodation Package. The package is inclusive of hotel accommodation, airport transfer and the cost of the entire IVF treatment including doctor's fees, laboratory charges, medications and blood tests.

1ST VISIT - FERTILITY ASSESSMENT (all inclusive)

● The package is inclusive of the following:

- Consultation
- Semen Analysis
- Hormonal Blood Test
